**Instructions / Process**

1. An application must be completed (below) and returned to Municipal Clerk's office with **a copy** of the plan showing the location of the proposed opening, its relationship to a development (if applicable), the dimensions of the opening and the reconstruction plans.
2. The application and plans will be forwarded to Township Engineer, Matt Zahorsky, for his review and approval.
  - Three square feet openings require an application fee of \$25.00 (twenty-five dollars)
  - If the opening is larger than three (3) square feet, the applicant shall pay an additional \$2.00 (two dollars) per foot of excavation, as per Township Code 195-3
3. The Township Engineer will notify the Clerk's Office of the required fees to be collected representing the inspection fee and restoration fee. The Clerk's Office will notify the applicant via email of the fees.
  - One check should include the inspection and restoration fee
  - One check should include the application fee
4. Upon receipt and the processing of the inspection fee, restoration fee, and application fee, the Clerk's Office will issue the Street Opening Permit
  - No construction work should be completed prior to obtaining the Street Opening Permit and prior to the contractor notifying Township Engineer, Matt Zahorsky, at least forty-eight (48) hours before the construction work takes place. Arrangements must be made for the Township Engineer to be present during construction.
5. Failure to comply with these requirements will violate the Township's regulations. In addition, no inspections will be completed by the Township Engineer and any application will be null and void. No Certificate of Occupancy will be issued for properties which require the inspection of the Township Engineer.
6. After the passage of sixty (60) days and prior to the expiration of (ninety) 90 days from the date of the completion of the work, the patched area shall be restored The area shall be restored by an infrared pavement process, to an area of two (2) feet outside the original edge of cut and bituminous concrete surface shall be installed over the extended. All disturbed areas outside the pavement area shall be restored to a condition equal to or better than that which currently exists. Prior to completing the infrared heated area it will be necessary to make arrangements with the office of the Township Engineer. Contractors should contact the office of the Engineer to make the necessary arrangements before the completion of the pavement restoration.
7. **Failure to comply with the above requirements will result in the forfeiture of the restoration fee posted with the Township of Wall.**
