Street Opening Application

Department of Engineering & Planning
 Matthew Zahorsky
 2700 Allaire Road
 Wall, NJ 07719
 (732)449-8444 Ext. 2247
 mzahorsky@townshiofwall.com

Instructions / Process

1. Application must be completed and returned to Municipal Clerk's office with **two (2) copies** of plan showing location of the proposed opening, its relationship to a development (if applicable), the dimensions of the opening and the reconstruction plans
2. Remit payment to the Township of Wall in the amount of **\$25.00 (twenty-five dollars)**.
 - If the opening is larger than three (3) square feet, the applicant shall pay an additional \$2.00 per foot of excavation, as per Township Code 195-3
3. The Application and Plans will be forwarded to Township Engineer, Matt Zahorsky for his review and approval. The Township Engineer will notify this office of the required fees to be collected representing the inspection fee and restoration fee.
4. Upon receipt processing of the inspection fee and restoration fee, the Clerk's Office will issue the Street Opening Permit
 - No construction work should be completed prior to obtaining the Street Opening Permit and prior to the contractor notifying Township Engineer, Matt Zahorsky, at least forty-eight (48) hours before the construction work takes place. Arrangements must be made for the Township Engineer to be present during construction.
5. Failure to comply with these requirements will violate the Township's regulations. In addition, no inspections will be completed by the Township Engineer and any application will be null and void. No Certificate of Occupancy will be issued for properties which require the inspection by the Township Engineer.
6. Prior to the release of any restoration fee, it will be necessary that upon the passage of sixty (60) days, the area shall be infrared heated to an area of two (2) feet outside the original excavation and 2" of bituminous concrete surface course. All disturbed areas outside the pavement area shall be restored to a condition equal to or better than that which currently exists. Prior to completing the infrared heated area it will be necessary that arrangements be made with the office of the Township Engineer to be present during this process. Contractor should contact the office to make the necessary arrangements prior to the completion of the pavement restoration.
7. **Failure to comply with the above requirements will result in the forfeiture of the restoration fee posted with the Township of Wall.**
