

Kids Day America 2017

On Saturday September 23, 2017, communities worldwide will be participating in “Kids Day America/ International.” This is a special day dedicated to children’s health, safety, environmental awareness and prevention in our community. The Wall Community Alliance and Garrow Family Chiropractic will be the sponsors of the 16th Annual Kids Day America in Wall Township which will be held from 10-2 pm at the Wall Municipal Building Courtyard

At the Kids Day America 2017 event, the Wall Township Environmental Advisory Committee used the interactive Enviroscape to teach children about non-point source pollution. Emma Burnell (13), Ella Lukowiak, (13), Christopher Runge (12) and Nicole DiRocco (13) created the rain simulation and observed the pollution entering into the waterways as a result. Emma, Ella, and Nicole are from Wall and Christopher is from Manasquan. The WTEAC also distributed NJDEP and County Coloring Books, DEP environmental stickers, and County Eco-Tip cards, and WTEAC literature on various environmental topics. This year, the Environmental Committee had an additional table and distributed kids bags and t-shirts which were donated by Public Works from their Wall Township Clean Communities Clean Up Day.
